

BaconMoji for iOS brings an app full of mouth-watering bacon emoji

Published on 08/15/16

BaconMoji for iOS brings an app full of mouth-watering bacon emoji. For those upset over only getting one bacon emoji added to the standard set this summer, Izatt Apps brings you an iOS keyboard full of bacon smileys, bacon platters, Bacon Man, and adorable little pigs emoting their little snouts out. Keeping in the spirit of the personalized emoji app craze along with Kimoji, StephMoji, and PhelpsMoji, this sizzling little newcomer opens all new avenues to communicate - through bacon emoji.

American Fork, Utah - Izatt International, a mobile application development company, today is pleased to announce the release of BaconMoji 1.0.1, their new emoji keyboard developed exclusively for iPhone, iPad and iPod touch devices. BaconMoji brings an app full of mouth-watering bacon emoji, emoticons, and stickers. Once installed, BaconMoji presents as a new keyboard in favorite texting or messaging apps such as iMessages, WhatsApp, Facebook Messenger, and Google Hangouts. Five categories of bacon emoji are available - bacon images, Bacon Man, adorable pigs, A-Z & 0-9 in bacon, and symbols/punctuation. Emoji include smileys made from bacon and eggs, a silver platter of bacon, a bacon heart, and more, plus Bacon Man and cute pigs both emoting across the spectrum.

A new personalized emoji craze has come to mobile, with Kim Kardashian's KIMOJI leading the charge. Steph Curry followed with StephMoji, and the latest addition is the Olympics' top medal winner Michael Phelps with PhelpsMoji. Who knows what's coming next? But bacon was not to be left out.

"There is a single new bacon emoji coming to the standard emoji set," said Jason Izatt, Founder/CEO of Izatt Apps. "That's been in the works for the past year and was finally officially added to the Unicode standard last month. But the world is clamoring for more bacon! A single bacon emoji just won't do. BaconMoji comes to the rescue with beautiful, mouth-watering bacon emoji of so many different kinds, and more to come with each new update."

Izatt Apps has developed over 70 apps in the past 8 years, both for themselves and for clients from coast to coast. The most notable app is MileBug Mileage Log which has ranked #1 in the Finance category in the U.S. each new year for the past three years. BaconMoji is the latest venture, tapping into the more playful side of it's creator.
