

Ultrapop Infinite - Endless Source of Unique Color Filter Combinations

Published on 09/23/16

Ultralab Apps today announces the release of Ultrapop Infinite 1.0, a special version of the unconventional photo editor Ultrapop. The app lets users turn their photos into boldly-colored pieces of digital art in just one tap. The app doesn't offer sophisticated image adjustment tools or tons of pre-crafted filter presets. Instead, it's a great option for when you want to take a quick shot and instantly transform it into something catchy and unusual.

Minsk, Belarus - Ultralab Apps today is excited to announce the release of Ultrapop Infinite, a simple one-button photo editor that draws its inspiration from the colorful custom-designed effects of the Ultrapop series. While the app lacks habitual adjustment tools and filter presets, it is extremely easy to pick up and offers a fun-filled and exciting editing experience every use.

Ultrapop Infinite is a lazy way to turn a regular snap in a creative over-the-top digital masterpiece in an instant. The app's interface is more than laconic with a single button that puts an unexpected mix of peculiar effects on the uploaded image. Every tap of a button produces a one-of-a-kind filter combination, allowing for an unlimited number of unique photo edits. Each edit can be saved and shared with equal ease right within the app. Thus, Ultrapop Infinite enables users that are willing to go beyond the standard set of photo filters to quickly snap a photo, instantly transform it, and share it on their favorite media.

Ultrapop app series has an active and growing Instagram community. Everyone interested in creative photo editing is welcome to join by following @ultrapopapp and tagging their photos with #ultrapopapp.
