

## **LightTable 3.0.1 is now available in the Mac App Store**

Published on 09/26/16

einstein's legacy v2.0, LLC today announces the release of LightTable 3.0.1, an unlimited virtual canvas application that lets users layout, inspect and compare images. Images can be resized, repositioned, layered and aligned allowing users to discover different storytelling perspectives. The 3.0.1 Update introduces gesture-based manipulation of canvas items, consolidates the user interface and provides several stability enhancement bug fixes.

Charlotte, North Carolina - einstein's legacy v2.0, LLC today is thrilled to announce the release and immediate availability of LightTable 3.0.1, an unlimited virtual canvas application. LightTable lets users layout, inspect and compare images. Images can be resized, repositioned, layered and aligned allowing users to discover different storytelling perspectives. The 3.0.1 Update introduces gesture-based manipulation of canvas items, consolidates the user interface and provides several stability enhancement bug fixes.

"With this release, we continue to refine LightTable as a tool for photographers, editors and designers who need to explore visual possibilities interactively," says einstein's legacy Chief Product Officer Douglas A. Welton. "To provide a more focussed experience for repeated tasks, we consolidated the placement of elements on the user interface and we added gesture support for doing magnification. We have also increased canvas size to provide a larger working area for manipulating image items."

LightTable 3.0.1 includes the following key features:

### Unlimited Canvas:

The LightTable Virtual Canvas automatically expands to accommodate any number of images.

### Layout Tools:

LightTable provides the tools to align, resize or re-order items or groups of images relative to the canvas or other images.

### Canvas Automation:

Duplicate, replicate and automatically arrange images using built-in canvas automation functions.

### Image Effects:

More than 40 built-in image effects are available to apply to items on the canvas.

### Canvas Export:

Capture the entire canvas layout as a single image which can then be exported in a variety of formats.

### Sharing:

Share your canvas with other applications or directly to Facebook, Twitter and other popular internet services.

### System Requirements:

Macintosh Computer and OS X 10.11 (El Capitan)

### Pricing and Availability:

LightTable 3.0.1 is available for \$19.99 USD (or equivalent amount in other currencies) and is available worldwide from the Mac App Store in the Photography category.
