Helsinki, Finland - Musopia today is proud to announce the launch of FourChords Guitar Karaoke, the company's popular interactive songbook now on Steam for Mac and Windows. Just

grab your guitar, pick your favorite song, and see the chords and lyrics flow smoothly in front of you while the virtual backing band plays the other instruments. Enjoy the fun karaoke-style play without the need to connect your guitar to the game itself.

Play alongside renowned online guitar instructor Justin Sandercoe (a.k.a., JustinGuitar) using Musopia's beginner-friendly teaching method, Instant Play. Don't worry about tabs or sheet music: Most songs include tutorial videos and chord demos that make learning easy and often ridiculously fun. In fact, the entire songbook in FourChords Guitar Karaoke can be played using only 11 chords and features an easy-to-use interface, including adjustable backing tracks ... and lyrics!

FourChords Guitar Karaoke launched on Steam Early Access in July and has been regularly updated with new music, gameplay enhancements, and bug fixes. After a successful stint on Steam Early Access, FourChords Guitar Karaoke now includes two advanced features, "Pro Chords" and "Strum Instructor." Pro Chords goes beyond the root chord - adding and subtracting notes for more advanced playing techniques. Strum Instructor teaches you how to strum in time with songs and when to utilize up and down strokes.

Key Features:

- * Expand your repertoire with several hundred additional songs available as downloadable content
- * Track your progress with experience points (XP awarded after you play each song)
- * With FourChords' Instant Play Method, you don't need to know anything about tabs or sheet music
- * Most songs include tutorial videos and chord demos
- * Simplified chords are arranged by professional guitarists: The whole songbook can be played with 11 chords and individual songs can be played with four simple chords
- * Tempo and transposition adjustments can be made to each song
- * Backing tracks and lyrics can also be adjusted
- * Karaoke-style display makes it easy to sing along
- * Training available through chord tutorials by the world's best guitar teacher, JustinGuitar
- * Strum Instructor shows a suitable strumming pattern for each song
