

## Free Halloween Fonts Collection Adds 5 New Fonts in Version 4 Update

Published on 10/04/16

California based MacAppware announces an update of 5 new fonts to their popular free Halloween Fonts collection. Dig up your creative genius with these eerily morbid typefaces. This brings the total number of fonts in Halloween Fonts to 45, all in OpenType font format with a commercial use license, perfect to use in any home or business design project. Dig your claws into some creepily creative font styles that make any Halloween-inspired project a hit!

San Francisco, California - MacAppware, a division of 128bit Technologies, has announced an update of 5 new fonts to their popular free Halloween Fonts. The new free fonts collection is available on the MacAppware website, or on the Mac App Store under the name: Halloween Fonts - Free Commercial Use Holiday Fonts.

Need to scare up some new fonts? Dig your claws into some creepily creative font styles that make any Halloween-inspired project a hit! This commercial use font collection now includes 45 original fonts in OpenType font format, and can be used for any personal AND business project. International character support is NOT standard for every font but is available for many of them.

These Halloween fonts are different from other font collections you may have purchased or downloaded recently (Premium Fonts, Free Fonts, 1000 OpenType Fonts, Free Fonts - Christmas Collection) and are an excellent addition to any font collector's library for use in graphic design, web design, party signs and invitations, banners, promotional material, advertisements, newsletters, application development and more.

### Halloween Fonts Highlights:

- \* 45 free fonts, with more to come
- \* All royalty free fonts in OpenType font format
- \* Commercial use license
- \* Cross-platform compatible
- \* Install and use in all applications that support fonts
- \* Spooky, scary, degraded, distressed, gothic, undead, dripping, and other creepy styles
- \* Perfect for invitations, party signs, banners, websites, advertisements, brochures, holiday cards, classrooms, and more
- \* Bonus: Includes a custom font preview app to see how the fonts look when applied to text, before you save and install them
- \* Font preview app is localized in the following languages: French, German, Spanish, Italian, Japanese, and English

### System Requirements:

- \* OS X 10.6.6 or later
- \* 64-bit processor
- \* 2.7 MB

The fonts are not automatically installed when you download them from the MacAppware website, or install the application from the Mac App Store. If you download Halloween Fonts from the MacAppware website you will simply download a zipped folder of the free fonts; if you are on a Mac you can then use Font Book to install and manage your new fonts. For the Mac App Store, you need to open Halloween Fonts from your Applications folder and then click the Copy Files button in the main window to save the folder of fonts to a location on your computer; you can then use Font Book to install and manage your new fonts.
