

Free Fonts Passes 400,000 Downloads on the Mac App Store

Published on 10/11/16

Free Fonts: 500 Commercial Use OpenType Fonts on the Mac App Store has reached a new milestone of over 400,000 downloads. Don't settle for the same looking fonts everyone else uses for their writing, presentations, reports and designs. Change up your text style with a creative collection of over 500 free fonts, and the only font collection that gets updated with new fonts. All fonts are in OpenType font format and include a commercial use license to use in any home or business design project.

San Francisco, California - MacAppware, a division of 128bit Technologies, announces its Free Fonts collection has been downloaded on the Mac App Store over 400,000 times. The popular Free Fonts collection is the only free commercial use font collection to receive regular updates of brand new fonts, bringing it from its original total of 45 fonts to over 500 fonts today. Font collectors who download off the Mac App Store can also get a bonus of 150 additional fonts simply by subscribing to receive future updates of new fonts from MacAppware.

Need to change the way your text looks in a presentation, print project or a graphic design project? Download a new collection of inspiring font designs. This collection now includes over 500 original fonts in OpenType font format, and can be used for any personal and business project. International character support is NOT standard for every font but is available for many of them.

These fonts are different from other font collections you may have purchased or downloaded from MacAppware/128bit Technologies (we never overlap or duplicate our fonts in any of our free or paid collections: Premium Fonts, 1000 OpenType Fonts, Halloween Fonts, Free Fonts - Christmas Collection) and are an excellent addition to any font collector's library for use in graphic and logo design, web design, scrapbooks, presentations, invitations, promotional material, application development, advertisements, and more.

The new fonts were licensed from top font designers in the industry, who agreed to offer their fonts through MacAppware absolutely free, including a commercial use license for each font! This growing font collection promises even more font updates in the future, absolutely free.

- * 500 total free fonts, with more added regularly
- * All free fonts in OpenType font format
