

## **CAZE announces its ultra-slim hybrid bumper case for iPhone 7/7 Plus**

Published on 10/17/16

The leader in ultra thin case design, CAZE announces its first hybrid bumper for iPhone 7/ 7 Plus, weighting just 11g. Constructed of aluminum and TPU, the DuEdge frame offers a revolutionary stylish metal look for the iPhone 7/ 7 Plus. DuEdge thin bumper comes in 5 colors: Jet Black, Matte Black, Silver, Gold and Rose Gold. All the colors and metal finishing of DuEdge are tuned to complement the respective colors of iPhone 7. DuEdge has the same thickness as CAZE best selling ThinEdge bumper.

Hong Kong - The leader in ultra thin case design, CAZE has announced its first hybrid bumper for iPhone 7/ 7 Plus, weighting just 11g. Constructed of aluminum and TPU, the DuEdge frame case offers a revolutionary stylish metal look for the iPhone 7/ 7 Plus. DuEdge thin bumper comes in 5 colors: Jet Black, Matte Black, Silver, Gold and Rose Gold. All the colors and metal finishing of DuEdge are tuned to complement the respective colors of iPhone 7. DuEdge has the same thickness as CAZE best selling ThinEdge bumper.

The DuEdge slim bumper is composed of an ultra-thin aluminum frame combining onto a soft frame bumper. With both soft and hard properties of aluminum and soft frame, the dual layer construction gives your iPhone 7/ 7 Plus reinforced bumper protection while maintaining a slim and sleek bumper style look and preserves the original beautiful design of the iPhone 7/ 7 Plus.

The inner TPU layer provides supreme durability and shock protection for your iPhone 7/ 7 Plus, while the ultra-thin aluminum frame adds additional strength and rigidity to the case. Another function of the soft TPU layer is to act as a cushion to prevent any damage that might be caused by removing or attaching the case. And it provides shock absorbing protection to all four sides and extends this protection to the front and the back of your iPhone 7/ 7 Plus.

The CAZE DuEdge Hybrid case is made to be as thin as possible without sacrificing protection, and made to perfectly follow the contours of your iPhone 7/ 7 Plus so it still has the original appearance. It comes with a two-tone color combination that let you personalize your iPhone the way you like. The colors are finished at high standard with a UV coating that makes the bumper stay great for a long time.

The hybrid bumper is designed to improve the operational performance of iPhone 7/7 Plus. It features sensitive metalized buttons using the same material and color as the frame to improve performance of the volume control and power button. To facilitate signal reception, the bumper is designed smartly to expose the antenna.

To protect your iPhone 7/ 7 Plus camera lens, an innovative lip on the edge of the frame is built to prevent the protruding camera from contacting with surfaces. Without the need of using Tools or screws, the flexible bumper design makes it easy to install by just snap on to your device.

To ensure all-around protection, the DuEdge hybrid bumper for iPhone 7/7 Plus comes with a free screen protection kit (front & back film) for added shield. Aside from the ultra slim bumper and screen protection kit, it also comes with a microfiber cloth and a wallet size iPhone stand. Complement your iPhone color from five colors: Jet Black/ White, Matte Black/ White, Silver/White, Gold/White, and Rose Gold/White.

iPhone CAZE started its business at a small shop with handmade products at the beginning and proudly released its first iPhone case in 2007. Due to the spread of word and increasing demand of overseas orders, iPhone CAZE began to take orders on its website in 2009. iPhone CAZE admires fashion, using leather, fabric, metal, polymer and swarovski crystal, to bring something luxury and special on iPhone for any occasion.
