Minsk, Belarus - Studio Master Key today is pleased to announce the release of Scrabble Kingdom 1.0, the company's new game title developed exclusively for iPhone, iPad and iPod touch devices. Are you tired of playing those boring word games that are similar to each other and doing the crosswords in the newspapers? Scrabble Kingdom is a new generation of word games with improved graphics and amusing gameplay. Not only will you be able to have fun but also you'll enrich your vocabulary. It is suitable for kids and anyone who wants to master the language:

* The game is intended for the whole family. Only a game with your family or friends can compete with ours. Have a try and find out which of you can catch more cats.

* Large board. In conventional Scrabble one is getting bored by the end of the game because there is no place to insert words. Our board consists of 33x33 squares, which means 1089 letters!

* Intelligent helper. You are not you when you are hungry? Not a problem! Our helper will select the best word with the set number of letters!

* Cats! Now this is not just a word game. The life of the kingdom is in your hands! Funny cats will help and interfere with your game. Will you be able to collect all the 101?

* No more ads! We are against in-game advertising, but we have got so many cats at home! And they all want to eat. Therefore we sell the game at a token price.
