The listing also contains short reviews and ratings for some of the places and is updated on a regular basis. EnjoyMinded is expected to launch by the end of November 2016.

Once the iOS app is available on the App Store, users will also be able to create 'hangouts' in those places and start meeting new people and making friends. The application will be completely free to download and use and anyone who signs up to the platform will be able to create a hangout or join one and meet some like-minded people. "The marketplace is already crowded with dating apps such as Tinder, OkCupid and PlentyOfFish, so the Enjoy Minded platform will be a really nice alternative for people who are not looking for dates, but just to make some friends and is a good alternative for couples looking to meet new people," explains Ivan Genchev, founder of London based Enjoy Minded Limited. "Also, it could be a better choice to Yelp and Foursquare for people that have recently moved to a new city and are looking to go out."
