Published on 10/28/16

CS Software Consultancy Ltd today releases Caato Time Tracker+ 1.0, a new app to track work time & billable hours for macOS and iOS. Caato Time Tracker+ was designed to make time tracking as simple and as fast as possible. Users can track time for new clients & projects with just one click. There is no need to fill out any fields; details can be added later. Adding and editing time entries can also be done within seconds. An Apple Watch app lets users start or stop tracking while on the move.

London, United Kingdom - CS Software Consultancy Ltd today is pleased to announce the release and immediate availability of Caato Time Tracker+ 1.0, a new app to track work time and billable hours, exclusively developed for macOS and iOS. Caato Time Tracker+ was designed to make time tracking as simple and as fast as possible. Users can track time for new clients and projects with just one click. There is no need to fill out any fields - details can be added later.

Adding and editing time entries can also be done within seconds. To make sure syncing to other devices is reliable and blazing fast, Caato Time Tracker+ uses its own cloud service. An Apple Watch app lets users start or stop tracking while on the move. To enable users to use their time tracking data with other applications, there is a CSV export function as well as a comprehensive Excel export (Excel export for Pro users only).

Feature Overview:

- * Folders (Pro), Projects and Activities
- * Time Entries with Notes
- * Report View with detailed Time Entries
- * Sorting by Alphabet, Manual Order or Tracking History
- * Date Range Filter
- * Power Search
- * Excel Export (Pro) and CSV Export
- * Menubar Status and Dynamic App Icon
- * Syncing (Pro)

Caato Time Tracker+ is based on the concepts of its successful and top rated predecessor, Caato Time Tracker+ (Mac App Store, Category: Productivity). For Caato Time Tracker+ the developers took user feedback and highly demanded feature requests on board to create this entirely new app with a streamlined and easy to use interface.
