

Exif Viewer by Fluntro 2.7 released for iOS - Displays EXIF Metadata

Published on 11/29/16

Fluntro today announces Exif Viewer by Fluntro 2.7, a beautiful and well crafted iOS app for photographers and photo enthusiasts. This useful app displays EXIF metadata of any photo, including EXIF metadata tags for ISO, shutter speed, focal length, camera model, lens model, lens serial number, time stamp, aperture, shutter count and more. This app also contain Exif Viewer Photos Extension and iMessage App extension. Version 2.7 includes stability enhancements based on customer feedback.

Thrissur, Kerala, India - Fluntro today is glad to announce the release of Exif Viewer by Fluntro 2.7, a beautiful and well crafted iOS app for photographers and photo enthusiasts. This useful app displays EXIF metadata of any photo on any iOS device(s), Photo Stream or iCloud, including EXIF metadata tags like ISO, shutter speed, focal length, camera model, lens model, lens serial number, time stamp, aperture, shutter count and more.

Users have the ability to customize the UI, re-order EXIF tags in the way they prefer, with the ability to hide EXIF tags that they don't want to see as well as select preferred date formats (eg 1 day ago vs August 24th 2014 vs 24-08-2016 etc). The app also supports three different types of Views, Exif Cards List view mode, Grid view mode and Map view mode.

Users can remove EXIF Metadata including Photos GPS location (known as Geotagging of photos). They can share an image with or without EXIF metadata, copy EXIF data to Clipboard (So that you can paste & share EXIF data as text in any other app). The app also supports 3D Touch on iPhone 6S and iPhone 6S Plus (or newer device with 3D Touch support). Exif Viewer includes shortcuts to access Favorites, Photo Streams, Albums, and All Photos quickly. Also Peek and POP functionality on ExifCards and photos in grid view. This app also contain Exif Viewer Photos Extension and iMessage App extension along with fully functional app.

Testimonials:

- * "5 stars for being the first and best integrated solution for photographers who care about their photo metadata."
- * "First class app ,enables instant exif information plus enlarged picture ,highly recommended"
- * "Stable, fast interface. Very good integration with all photo app. Big customization abilities. Last but not least - nice viewer."

Language Support:

Exif Viewer by Fluntro is localized into English, Danish, Dutch, French, German, Italian, Japanese, Portuguese, Russian, Simplified Chinese, Spanish and Traditional Chinese languages.

Device Requirements:

- * iPhone, iPad, and iPod touch
- * Requires iOS 8.0 or later
- * Universal Application
- * 25.3 MB

Pricing and Availability:
