

Tales of Cosmos - New Open World Adventure Game for Mac and Windows

Published on 12/05/16

Red Dwarf Games announce Tales of Cosmos, the company's new point-and-click adventure game for Mac and Windows computers. In Tales of Cosmos, the player assumes the roles of Perseus and Gagayev, animal astronauts who become stranded on an unknown planet, and helps them get to the bottom of a cosmic mystery. The game combines classic point-and-click gameplay with seamless space flight mechanics, and offers charming and humorous characters, hand-drawn environments, ambient music, and more.

Budapest, Hungary - Red Dwarf Games is proud to announce the release of Tales of Cosmos, the company's new point-and-click adventure game for Mac and Windows computers. In Tales of Cosmos, the player assumes the roles of Perseus and Gagayev, animal astronauts who become stranded on an unknown planet, and helps them get to the bottom of a cosmic mystery.

Game Features:

- * 2D open world point-and-click adventure game
- * Combines classic point-and-click gameplay with seamless space flight mechanics
- * Many planets and moons to explore
- * Each planet has a large number of interactive objects and characters, as well as many puzzles
- * Interstellar puzzles - an item acquired on one planet may be useful on another
- * Integrated puzzle hint system
- * Charming, humorous characters
- * Hand-drawn environments, ambient music, laid-back space mood
- * Inspired by 90s point-and-click adventures like Goblins and Day of the Tentacle
- * Modding tools - level editor included with the game

Language Support:

Tales of Cosmos is available in English, French, Italian, German, Spanish, Brazilian Portuguese, Hungarian, Polish, and Russian languages.

Tales of Cosmos is an open world point-and-click adventure game set on the planet giant Novaclad and its surrounding system of planets and moons. Experience the freedom of unrestricted space exploration, discover new planets, seek the aid of local lifeforms, solve puzzles, and, of course, help yourself to anything that isn't nailed down.

System Requirements:

- * Requires Mac OS X v10.6 or higher
- * Dual-core 2 GHz processor
- * 300 MB HD space

Tales of Cosmos is currently available on the Steam network for Windows and Mac. A mobile version is in development. Review copies and walkthrough guide available on request, please let us know.
