

## EzyCal - Calendar 2017 released for OS X - Get More Productive

Published on 01/09/17

Bangalore based developer, AppYogi Software today introduces EzyCal - Calendar 2017, the company's new productive menu bar calendar developed exclusively for Mac OS X. This convenient, easy-to-use app ships with a full calendar display with events, reminders, to-do list organiser, cal-sync and so much more. Offering keyboard shortcuts, custom color themes users can select from any three window size of the calendar, as well as sync with all available calendar events.

Bangalore, India - AppYogi Software today is pleased to announce the release of EzyCal - Calendar 2017 (v1.0), the company's new productive Menu Bar app developed exclusively for Mac OS X. EzyCal features a unique easy-to-use menu bar calendar which replaces Apple native status bar time display with many advantages for accessing the native calendar. This convenient Menu Bar app comes with full calendar display with events, reminders, to-do list and much more. It also allows the user to set custom Calendar in the menu bar.

### Features:

- \* One click Add events, reminders, todo list right from menu bar
- \* Countdown to keep you on track
- \* Sync with Apple and all available calendar events
- \* Get the list of events in a single display for next 7 days
- \* Customize keyboard shortcuts as needed
- \* Different colors themes
- \* Different sizes for various screen sizes
- \* Simple User interface to interact with the calendar
- \* Retina Display enabled icons
- \* Easy to use interface
- \* Best in the market

### Preferences:

- \* Status Bar Icon: Shows in the menubar which is selected month, day of the week, Time, Outline
- \* KeyBoard Shortcut: Record keyboard shortcut to open calendar from menubar
- \* Theme: Select your lucky color for, more lucky days
- \* Window Size: Select any window size of the calendar from available three. Which is visual as per your screen size
- \* Calendar Tab: Select other calendars which you want to sync with EzyCal

"EzyCal App is not another Calendar App, It's powered to make you productive" explained Bharath Patel, co-founder of Bangalore-based AppYogi Software." It features a unique functionality that will keep you up to date, by creating events syncing with Apple mac calendar which all will be on your iPhone, if you have icloud enabled and synced. The app works best on systems that have a 64-bit processor and the download size is 1.5 MB. The app user-friendly interface right from your menu bar with retina icons and also works with Macbook Air, Mac mini iMac, Mac Pro and MacBook pro."

### System Requirements:

- \* OS X 10.10 and later
- \* 64-bit processor
- \* 1.5 MB

### Pricing and Availability:
