

Top iOS Reference App Terminology Goes Free with Huge Update

Published on 01/12/17

Texas based Agile Tortoise today announces Terminology 4.0.1, an all-new version of its popular iPhone and iPad reference app. Designed specifically to make it easy to explore words and phrases, Terminology is part dictionary, part thesaurus and part reference tool. Version 4.0.1 brings a completely new interface and support for modern iPhone and iPad features, as well as a new freemium model to this already powerful extensible research tool.

North Richland Hills, Texas - Agile Tortoise today is excited to announce the release and immediate availability of Terminology 4.0.1, an all-new version of its popular iPhone and iPad reference app. Since it hit the App Store in July 2010, Terminology has been one of the most popular dictionary, thesaurus and reference apps for both iPad and iPhone. A Starbucks Pick of the Week in October, 2016, Terminology version 4 brings a completely new interface and support for modern iPhone and iPad features to the already powerful extensible research tool.

Terminology is a browser for the English language - part dictionary/thesaurus and part research tool. Terminology is designed to make it easy to explore words and phrases, diving down to more and less specific terms - accessing the web and other apps for more detail. In addition to its offline dictionary and semantic reference, Terminology can be extended with actions to search to websites as well as other reference apps which support integration - making it a great place to start all your searches.

Features:

- * Full offline U.S. English dictionary and word reference with simple clear definitions
- * Definitions, synonyms, antonyms and deeper word relations such as: more and less specific words, part, part of, members, member of, pertains to and more
- * Audio pronunciations
- * Share extension to look up terms from any text selection in any app
- * Favorite words for quick access
- * Term browsing history
- * Add notes to any term
- * Term of the Day
- * Sync of favorites, history and actions between multiple devices
- * Actions extend your research with quick links to web resources and other reference apps
- * Action Library with pre-configured actions for popular reference, search and other resources
- * Create custom actions (Pro unlock required)
- * Dark theme with auto-switching (Pro unlock required)
- * Wildcard (?,*) searching
- * Spelling suggestions
- * Spotlight and Handoff support
- * iPad Multitasking and Split View support
- * Extensive support for URL scheme integration via x-callback-url

Device Requirements:

- * iPhone, iPad, and iPod touch
- * Requires iOS 10.0 or later
- * 101 MB

Pricing and Availability:

Available immediately, Terminology 4.0.1 is Free with optional \$1.99 (USD) unlock to remove ads, enable dark theme and remove ads. It is available worldwide exclusively

prMac: Publish Once, Broadcast the World :: <http://prmac.com>

through the App Store in the Reference category. For more information, please contact Greg Pierce or visit Agile Tortoise online.
