

Unmarked Software Releases TextSoap 8.3.1 Update

Published on 02/08/17

Unmarked Software today announces TextSoap 8.3.1, an update to its award-winning text processing and editing utility for macOS. TextSoap 8.3.1 is a maintenance release designed to improve stability and address issues reported by customers. TextSoap effortlessly processes text from endlessly different formats. TextSoap automates user's efforts to fix those strange text formatting issues users encounter every day when working with text.

Vancouver, Washington - Unmarked Software today is proud to announce the release and immediate availability of TextSoap(R) 8.3.1, an update to its award-winning text processing and editing utility for macOS. TextSoap 8.3.1 is a maintenance release designed to improve stability and address issues reported by customers.

Among the issues addressed in this release:

- * TextSoap Menu would (sometimes) require two clicks to display currently selected group.
- * Function keys (without a modifier) could not be used as hot keys to activate cleaners in TextSoap Menu.
- * Title Case action cleaner could cause crash with some text.
- * Additional under-the-hood changes made that improve reliability.

The TextSoap 8.3.1 update is free of charge to all TextSoap 8 customers. Customers who purchased directly may download the update immediately from the Unmarked Software web site or using the check for updates option within the app.

TextSoap saves you time by automating your efforts to fix those strange formatting issues you encounter every day when working with text.

Supported Languages:

- * US English

System Requirements:

- * Requires macOS 10.10 or later

Pricing and Availability:

TextSoap 8.3.1 has a suggested retail price of \$44.99 (USD). TextSoap may be purchased directly from Unmarked Software. Discounted upgrades for existing customers may be purchased directly from Unmarked Software. Upgrades start at \$22.99 (USD).
