

LinkOptimizer for Adobe InDesign at 50% off on BitsDuJour on February 15

Published on 02/15/17

Zevrix Solutions announces that LinkOptimizer, the company's workflow automation solution for Adobe InDesign, is available at 50% off on the discount website BitsDuJour on February 15 only. LinkOptimizer allows users to reduce InDesign link size and speed up processing by eliminating excess image data, converting colors, performing image adjustments and converting file formats. As a result users can accelerate document output and save gigabytes of disk space and hours of production time.

Toronto (ON) Canada - Zevrix Solutions announces that LinkOptimizer, the company's workflow automation solution for Adobe InDesign, is available at 50% off on the discount website BitsDuJour today, February 15 only. Awarded 4 out of 5 stars by Computer Arts magazine, LinkOptimizer automates complex image manipulation tasks allowing to significantly reduce the size of InDesign links, save processing time and reduce production costs. The discount lets users save \$130 on each license of LinkOptimizer.

"LinkOptimizer is the one product no creative studio can live without," says Wayne Guy from Edge Graphics studio in Lake Balboa, California. "It saves hours of time, tediously replacing linked images, resizing, batch processing... If you're a designer or production artist, you need this."

LinkOptimizer works automatically with Adobe Photoshop to eliminate the excess image data of InDesign links, perform essential image adjustments and convert image formats. For example, with just a click of a button users can:

- * Scale and crop images to match their dimensions in InDesign
- * Change their resolution to 300 dpi
- * Convert RGB images to CMYK
- * Resave JPEG images as TIFF
- * Run a Photoshop Action on each image

At the end of processing, LinkOptimizer reimports images to InDesign at 100% in their precise position. In addition, the software can process batches of InDesign files with one click, merge layers and delete hidden ones, and process copies of InDesign documents and images instead of original files. As a result users can save gigabytes of disk space and countless hours of optimizing images manually, accelerate document output, reduce job turnaround and cut costs through faster processing.

Pricing and Availability:

LinkOptimizer can be purchased from BitsDuJour at 50% off for \$129.95 (USD) on February 15 only. Trial is also available for download. LinkOptimizer requires Mac OS X 10.7-10.12 and Adobe InDesign/Photoshop CS3-CC 2017.
