

Selfie Box for iOS - Fabulous Filters for Awesome Photos and Portraits

Published on 02/20/17

Minsk based developer, Ultralab Apps today announces Selfie Box 1.2.1, an update to their popular photo and selfie editing app for iOS devices. Selfie Box was created specifically for taking perfect selfies with minimum effort. All of the filters and effects featured in the app were created by in-house designers to bring out the best in every portrait and selfie. Version 1.2.1 has undergone a complete makeover and offers an even greater number of flattering effects.

Minsk, Belarus - Ultralab Apps today is pleased to announce the release of Selfie Box 1.2.1, an update to their popular photo and selfie editing app developed exclusively for iPhone, iPad and iPod touch devices. Version 1.2.1 will definitely appeal to selfie makers and photo fans with its new flattering, smoothing effects and function "Beautify" for perfect skin. All of the filters and effects featured in the app were thoroughly created by in house designers to bring out the best in every portrait and selfie. The app's numerous helpful features include:

- * Flattering and smoothing effects: The app has packs with tens of different kinds of filters to quickly show a variety of amazing image outputs
- * Flawless skin: The app has a button "Beautify" that eliminates any defects on a portrait or selfie - Just one tap for a truly stunning result
- * Real time preview of the filters: Helps users see exactly how they look with the effect applied and and instantly capture the image
- * Shuffle filters: When in the mood for something spontaneous, users just have to tap the shuffle button to apply a random effect from all the available - Often a perfect match is unexpected, and it's not the usual preferred choice
- * Self-timer: Indispensable when it comes to taking a flattering photo while holding the phone at a distance. With this great feature, users can make the perfect portrait without having to hit a button
- * Selfies are created to be shared with the world: The app has shortcuts for sharing pics on popular networks such as Facebook and Instagram, and even an option to print them out right from inside the app

Device requirements:

- * iPhone, iPad and iPod touch
- * Requires iOS 8.0 or later
- * 55.0 MB
