

CS Odessa Announces Free Update for ConceptDraw Mac OS X UI Solution

Published on 02/28/17

CS Odessa today announces their new macOS Sierra graphical user interface addition for ConceptDraw PRO. Available now in Solution Park, the Mac OS X User Interface solution features a great toolset for developers and software product management professionals who use ConceptDraw PRO in their prototyping work. The renewed solution provides graphical user interface elements, ui patterns, and application icons that greatly simplify user interface likeness studies for Macintosh applications.

San Jose, California - CS Odessa is pleased to announce the new professional macOS Sierra graphical user interface addition for ConceptDraw PRO, which is now available in Solution Park. The new update for Mac OS X User Interface solution provides a great toolset for developers and software product management professionals who use ConceptDraw PRO in their prototyping work. The renewed solution provides graphical user interface elements, ui patterns, and application icons that greatly simplify user interface likeness studies for Macintosh applications.

ConceptDraw Office v4 is the fourth generation suite of ConceptDraw products that uses ConceptDraw InGyre4 integration technology to share data between its applications, allowing user to switch gears for different tasks more quickly. ConceptDraw Office v4 includes ConceptDraw MINDMAP v9, ConceptDraw PROJECT v8, ConceptDraw PRO v11, and the ConceptDraw Solution Park with more than 170 Solutions to power user through difficult and time consuming asks. The ConceptDraw Office suite is designed for knowledge workers, project managers, managers, and academics. ConceptDraw Office works with the latest versions of both Apple OS X and Microsoft Windows.
