

Baby Studio Pro - Share Precious, Funny and Memorable Moments

Published on 03/13/17

UK based ZRL Alliance today announces Baby Studio Pro 1.1, the company's photo sharing app developed for iPhone, iPad and iPod touch devices. Baby Studio Pro enables mothers to share precious, funny and memorable moments during pregnancy, child birth and thereafter. A single app allows users to click, embellish, personalise and share special moments, and offers a cool print store to bring the memories to life in a variety of ways. Version 1.1 offers many nice improvements.

London, England - ZRL Alliance today is pleased to announce the release and immediate availability of Baby Studio Pro 1.1, the company's photo sharing app developed for iPhone, iPad and iPod touch devices. The nine months from pregnancy to delivery are full of special moments and milestones that are amplified once the baby is born. The birth of a baby and their growing years are a treasure trove every parent wants to keep in their heart.

From the visibly growing baby bump to the first kick, smile, tooth and the first few steps, it is now possible to share, store, relive and decorate these memories with the Baby Studio Pro. The concept for the app comes from the founder's wife, a mother of 3 kids who longed to share her milestones and moments with her husband while she was pregnant and worked overseas in Australia.

"I knew I couldn't be physically present with my husband, but I didn't want him to miss out on these magical memories. That's when I thought how wonderful it would be to have an app where mothers could post pics and have some fun by decorating these pics with personalised messages and share them with their loved ones," says Cindy Caan, founder of the Baby Studio Pro App. "My husband loved the idea and the result is the 'Baby Studio Pro App' that lets you save and forever treasure the first kick, scan, the countdown to the due date, your baby's birth, baby's first crawl, first walk, teething, first bath and every big moment from your pregnancy to child birth to after."

Every mother wants to share her highs and lows with her family and friends who may not be with her physically. Baby Studio Pro is a cool app that allows parents to not only share pics, but also have fun with over 600 funny, interesting and emotional stickers they can use in their posts. The app also provides several filters to make the pics more engaging. There is also an option to add personalised text to pictures for memorable and personalised images that can be easily shared via whatsapp and other social platforms.

Mothers can now share all the funny moments during their pregnancy and their toddler's antics using this simple and interactive app. Apart from sharing memories, the app comes with an integrated print store where users can choose to print their treasured moments on lifestyle items such as tablet cases, phone cases, photo books, stickers, wall decor and much more.

Device Requirements:

- * iPhone, iPad, and iPod touch
- * Requires iOS 8.0 or later
