Chengdu, China - MacXDVD Software today revealed a half-month Spring promotion, featuring significant discounts on its most popular products, including the best-selling DVD ripper, video converter and iPhone manager. Users can get the world-class media management suite at up to 76% off beginning today, through the end of March on MacXDVD's Spring Offer page. There is sure to be something for everyone!

As springtime holiday season comes closer, it's one of the best times to travel. At this time of the year, forums are inundated with support requests on how to digitalize cumbersome DVD movies to kill time during the travel, convert recorded videos to play on iPhone, iPad or upload to YouTube or social sites, and backup precious videos or photos to computer and etc. MacXDVD covers all those needs by offering its award-winning DVD movies, HD videos and iPhone content management suite in a compelling deal.

The offering kicks off now and ends on March 31. Get up to 76% off on MacXDVD's Spring Offer.

MacX MediaTrans: A must-have iPhone manager that offers easier access to manage iPhone data without iTunes. The two-way data transfer solution between iOS 10 (or earlier) powered iPhone, iPad and iPod and Mac computers covers almost all the iOS data, including music, movies, photos, ringtone, iTunes purchases, books and more. It's the only iPhone manager for Mac on the market that can export iTunes locked movies, TV shows, music, songs, audiobooks into normal MP4 and MP3 files.

MacX DVD Ripper Pro: The world's leading DVD ripper that delivers the most-comprehensive DVD ripping solution. It's able to decrypt the latest DVD movies to MP4, MOV, AVI, WMV and almost all the mainstream formats; convert DVDs for iDevices, Android, Windows mobiles, Apple TV, game consoles and more; and 1:1 copy DVD to ISO and backup movie to MKV/MPEG.

With the newly-added DVD disc file system, it becomes the world's first DVD ripper that supports all the UDF/non-UDF discs, namely 99-title DVDs, multiple-title discs, latest-released DVDs and all types of DVD.

MacX Video Converter Pro: A welcome video converter for Mac that can convert videos among different digital formats. With more than 300 video codecs and 50 audio codecs built-in, the movie converter delivers virtually any type of conversion to support any mobile device and formats currently existed (to name a few M2TS, MTS, AVCHD, MP4, AVI, WMV, MOV, FLV, VOB). It will also extract videos from various online video sharing sites and convert them into MP4, MP3 and other formats. It has the fastest converting speed on Mac by enabling the Intel's QSV tech, e.g., a 4-5 minutes online video can be converted into MP4 within 30 seconds, 5x faster than other converters.
