

Puggy 1.0 released for iOS - Let Pug give you info from your Home Screen

Published on 03/29/17

Active User Co., LTD today introduces Puggy 1.0, the company's new Pug widget, calendar, weather and sticker app for iPhone, iPad and iPod touch devices. Puggy allows users to interact with a cute Pug on their phone's lock screen. Pug tells about the local weather forecast, becomes a user's calendar assistant, alerts when their phone battery is low, and sometimes gives funny comments. Puggy even includes a nice sticker pack that allows the user to send funny Pug animation in iMessage.

Hanoi, Viet Nam - Active User Co., LTD today is pleased to announce the release and immediate availability of Puggy 1.0, the company's new Pug widget, calendar, weather and sticker app designed exclusively for iPhone, iPad and iPod touch devices. Puggy allows users to interact with a cute Pug on their phone's lock screen. Pug tells about the local weather forecast, becomes user's calendar assistant, alerts when the user's phone battery is low, and sometimes gives funny comments.

Apple's iOS has a featured called Today extension (or widget), which allows users to quickly review some information like weather, calendar or battery information directly on their lock screen. Active User wants to make it more fun by building a game style widget, in which all necessary information above is presented by a little cute Pug dog. The Pug will tell exactly what the next calendar events, give 5 days weather forecast or set an alert when the battery is low. Especially, the Pug has emotion. He will react differently depending on device's status. For example, Pug will get angry if his master forgot to charge the device. Puggy even includes a nice sticker pack that allows the user to send funny Pug animation in iMessage.

Feature list:

- * Animated pug with actions: Playing, eating, sleeping
- * Inform battery levels and phone's status
- * Directly connect to phone's calendar - present next calendar events or appointments
- * Weather forecast, including today's weather: Rain, Snow, Hot, Highest/lowest temperature and Next 5 day forecast

Device Requirements:

- * iPhone, iPad, and iPod touch
- * Requires iOS 8.1 or later
- * 26.5 MB
