

## **Noodlesoft releases Hazel 4.1 for OS X**

Published on 05/15/17

Noodlesoft today release Hazel 4.1 an important feature update to their popular housekeeping utility for Mac OS X. Hazel 4.1 features smart date matching, as well as boasts a new user guide to help users to take advantage of Hazel's features. Previewing rules is now enhanced with detachable popovers and highlighting of text matches. Other features include default values for empty attributes, a new "capture date" attribute, the ability to match a file based on others in the same folder, and more.

New York, New York - Noodlesoft is proud to announce the availability of Hazel 4.1 for Mac OS X. Hazel 4.1 adds numerous features, improvements and fixes. Hazel 4.1 features "smart" date matching, allowing users to match dates without having to specify any formats or patterns. This version also boasts a new user guide to help users to take advantage of Hazel's features.

Previewing rules is now enhanced with detachable popovers and highlighting of text matches. Other features include default values for empty attributes, a new "capture date" attribute, the ability to match a file based on others in the same folder, and more. This release also contains numerous fixes to performance and stability.

### About Hazel:

Hazel is a housekeeper for your folders and files. Using Hazel's powerful rule engine, you can easily create workflows that keep your files organized automatically. Hazel also features options for managing your Trash and includes an intuitive application uninstaller.

### Pricing and Availability:

Hazel 4 is available for download now and features a 14 day free trial. Hazel has a retail price of \$32 (USD) and can be purchased from Noodlesoft. Version 4.1 is a free update for registered 4.0 users. Users with licenses for version 3 or earlier can upgrade for \$10. For more information, please contact Paul Kim.
