

Joyoshare introduces Media Cutter 1.0 - Smart New Video Splitting Tool

Published on 05/23/17

Multimedia software developer and provider, Joyoshare Software today introduces Media Cutter 1.0, the company's new smart video splitting tool for Mac and Windows. Multi-functional yet easy-to-use, Media Cutter allows anyone to cut, edit and convert videos as well as audio in seconds with 100% lossless quality. Joyoshare Media Cutter is well designed, requires no technical skills, and aimed to help people control and enjoy their digital entertainment lives better and easier.

Hong Kong - Joyoshare Software, a multimedia software developer and provider, today is proud to announce the release of Media Cutter 1.0, the company's new smart video splitting tool for Mac and Windows. Multi-functional yet easy-to-use, Media Cutter allows anyone to cut, edit and convert videos as well as audio in seconds with 100% lossless quality. Joyoshare Media Cutter is well designed, requires no technical skills, and aimed to help people control and enjoy their digital entertainment lives better and easier.

An all-in-one video trimmer, Media Cutter was specifically developed for cutting and trimming large videos and audio from any popular format to smaller footage without any quality loss. It also allows you convert video footage to any other format, such as M4V, MP4, AVI, MPG, MPEG, MP3, AAC, AC3, WAV, etc. as well as transfer split videos and audio to multiple ready-presets of popular devices, including Apple iPhone, iPad, Apple TV, Samsung Galaxy S and other Android devices and game consoles.

"There are huge demands of cutting and editing videos in our daily life. But most of the video cutting solutions in the market only make things more complicated as they provide customers with redundant buttons and functions." said Daniel, Joyoshare product manager. "That's why Joyoshare Media Cutter comes out. Sold at \$29.95 only, it's specially developed to help people cut and convert almost all types of videos and audios to popular formats and mobile devices with extremely intuitive interface and neat buttons that everyone can handle it straightforward."

By adopting an innovative acceleration processor, Joyoshare Media Cutter works at 60X super faster speed. It's not only a smart MP4, AVI, MKV, WMV video cutter, but also a powerful video joiner that can merge existing video and audio clips that are being cut from the same source video or audio to a new video in other formats according to your needs. Joyoshare Media Cutter aims to be the most cost-effective video cutting tool offering professional-level features at a much lower price.

Pricing and Availability:

Media Cutter 1.0 is \$29.95 (USD). There is a free trial that provides 5 opportunities for any user to cut and convert videos and audios for free. The newly released version is fully compatible with the latest macOS 10.12 or lower and all popular Windows OS.
