

Trunkshare releases new app for local delivery using your car trunk

Published on 05/31/17

TrunkShare LLC today releases TrunkShare 1.02 for iOS, an app that uses the power of local shoppers to help them find items in local stores. Consumers can broadcast their request with the app and get alerts confirming availability. By matching requested items with available trunk spaces, the app adapts to user needs and ensures their delivery matches their needs and is securely paid. Anyone who has an empty car trunk can now make good use of it and earn some money while sparing the environment.

Fremont, California - Today TrunkShare LLC released its first version of an app that uses the power of local shoppers to help them find items in local stores. TrunkShare 1.02 is a sharing app that serves local shoppers and eliminates wasted car trunks while benefiting the local economy and the environment! Why shop blind when users can get insights into items available and in stock within 10 miles of their location? Trunkshare uses the collective power of local shoppers to finally enable them to SEE what they can buy. By matching requested items with available trunk spaces, our app adapts to user needs and ensures their delivery matches their needs and is securely paid. For anyone who has an empty car trunk they can now make good use of it and earn some money while sparing the environment. The Trunkshare app fabulous features include:

- * Posting an item you'd like to get delivered in 3 easy steps - Add a photo to ensure what you asked for is clearly understood
- * Seeing and searching items to be delivered on a map or from a featured list
- * Negotiating a delivery fee, time and location and select the Trunksharer that best meets your needs
- * If you have an idle car trunk, responding to requests from your community and deliver items on your way home or to work
- * Managing your worklist of accepted jobs to deliver locally and track what's in your queue and what deliveries you completed
- * Paying securely and accepting items upon delivery - Satisfaction guaranteed
- * Updating your settings and get push notifications straight on your mobile device when and how you want them
