

iMobie PhoneRescue Now Saves Lost Data from Android Phones and Tablets

Published on 06/06/17

iMobie Inc. today introduces PhoneRescue for Android 1.0, the latest addition to their popular data recovery franchise for Mac and Windows. PhoneRescue for Android allows anyone to save lost and deleted data from Android phones and tablets. PhoneRescue digs deep in Android devices to bring back all the lost photos, messages, contacts, WhatsApp data, and more. It applies customized technologies for different phones and tablets to provide users with best-ever experience and results.

Chengdu, China - iMobie Inc., with a 3-year successful experience in iOS data recovery, today is very pleased to announce the release and immediate availability of PhoneRescue for Android 1.0, the latest addition to their popular data recovery franchise for Mac and Windows. PhoneRescue for Android allows anyone to save lost and deleted data from Android phones and tablets.

Featuring industry-leading recovery rate and speed, PhoneRescue digs deep in Android devices to bring back all the lost photos, messages, contacts, WhatsApp data, and more. PhoneRescue is the only software that can restore crucial personal info directly to phones. It applies customized technologies for different phones and tablets to provide users with best-ever experience and results.

"PhoneRescue has successfully helped over 5,700,000 iOS users get back lost-but-valued data during the past 3 years, and we've also received thousands of feedback from Android users, who expect that we can save them from data loss as well," said Frank Kong, CEO of iMobie Inc. "So we worked hard in the past year, optimized our unique data recovery technology, and finally brought out the new PhoneRescue, which can save both iOS and Android users from data disaster, with the world's highest data recovery success rate."

Supported Devices:

- * SAMSUNG Phone Series: Galaxy S8, Galaxy S7 Edge, Galaxy S7, Galaxy S7 Active, Galaxy Note 5, Galaxy S6 Edge+, Galaxy S6 Edge, etc.
- * SAMSUNG Pad Series: Galaxy Tab A, Galaxy View, Galaxy Tab E Lite, Galaxy Tab S2, etc.

Industry-Leading Data Recovery Rate and Speed:

Developed with the cutting-edge data analysis and processing technologies, PhoneRescue guarantees you second-to-none scanning speed and the highest data recovery rate in the industry. No more waiting and suffering. Now you can get back what you want as quick as a few seconds.

The Only Solution to Restore Data Straight to Android Device:

Apart from saving lost data to PC or Mac, PhoneRescue also works as the only solution on the market that restores lost data directly to phones and tablets. For the first time ever, you are capable of saving your lost messages, contacts, call logs, and calendars straight to Android devices for instant reuse.

The Most Data Types Coverage Rate Ever:

PhoneRescue recovers as many as 13 types of the most essential data and files for Android users, covering photos, messages, contacts, music, videos, etc. It even provides a complete solution to get back your lost or hidden WhatsApp chatting records as well as all attachments, with or without rooting device.

Custom-Built Versions for Different Android Phones:

To ensure you retrieve your lost data with the highest success rate, PhoneRescue is designed with 5 customized versions for the mainstream Android phone brands: SAMSUNG, Google, SONY, HTC and HUAWEI. Soon it will bring the special versions for LG and Motorola as well. More than a general tool, this data recovery expert makes everything unique, professional and intelligent.
