

## Parents are looking for new ways to stop the summer slide, here's how

Published on 07/05/17

Edoki Academy today announces Montessori Preschool 1.1.1, its new, very unique educational app for iOS and Android devices. Montessori Preschool offers Pre-K and K learning activities for children from the age of 3. Presented as an enchanting and engaging sandbox app that children will love to spend time in, it includes a cafeteria, restrooms, a garden, a playground and lots of fundamental learning! A virtual school with cute interactive characters for hours of free play.

Paris, France - Edoki Academy, a French education start-up, is proud to announce today the release of Montessori Preschool 1.1.1, a new generation of apps: a monthly or yearly subscription with a 1 month free trial period. Do you remember feeling excited to receive your subscription magazine in the mail every month? Montessori Preschool re-creates this feeling. It is an enchanting and engaging sandbox app that children will love to spend time in and with the subscription comes new activities added regularly! Digital subscription works exactly like other subscriptions: as a subscriber, you can access the whole content of the app and you get regular updates for free. Parents who like to "try before they buy" have a 30-day free trial period.

Subscription options:

- \* Monthly: \$4.99/month + 1st month free
- \* Yearly: \$3.33/month (30% off) + 1st month free
- \* Also exists in Premium version: \$89.99

The app is divided into 4 sections:

- \* A virtual school with cute interactive characters for hours of free play
- \* A math room with Montessori based activities to learn to count from 0 to 9 999
- \* An early literacy room to learn to read & write
- \* An arts, creativity & logic room to draw, learn colors, practice critical thinking and play music

Subscribers get:

- \* More than 100 different activities covering subjects like: math, early Literacy, coding, arts and practical life.
- \* 1 month 100% Free
- \* A parental dashboard to keep track of children's progress (up to 40 different children)
- \* A monthly "tip" containing a learning activity to do at home
- \* Access to the Apple TV version (when purchased on iOS)
- \* Dedicated support email & website with more content
- \* The content in English, Chinese & French

Designed by certified Montessori teachers with years of classroom experience, Montessori Preschool is a fun child-centered app divided in 4 subjects: Math, Early literacy, Arts and Practical Life. You'll absolutely love the enchanting graphic design and educational content, it is just the perfect app for children from 3 to 7 years old.

In Montessori Preschool, children can enjoy exactly the same daily activities as in a regular preschool, they can play the mini-games, they can interact with cute avatars and they can customize their school using the points earned while playing. Parents/teachers benefit from a tailor-made dashboard that tracks each child's progress and suggests the next activity.

Features:

- \* A comprehensive Montessori 3-7 years old environment to learn by doing

prMac: Publish Once, Broadcast the World :: <http://prmac.com>

- \* Monthly updates and new content to make the app forever captivating!
- \* 4 broad areas of learning grounded in the fundamentals of Montessori: self-correction, autonomy, self-confidence and adaptability
- \* A fun "reward" system for increased motivation

Whether you are a newcomer to the world of Montessori, or a seasoned student, Montessori Preschool is sure to take each learner on an enthralling journey!

#### Math:

Our math curriculum covers learning to count, recognize numbers, trace them... from zero to 1 million. Introduction to addition and subtraction using Montessori materials are also available.

#### Early Literacy"

In a Montessori classroom, early literacy starts before learning to read. Children are exposed to sounds and train their ear to identify them before putting a name on a letter. In the Early Literacy class, children can start with fun sound games like "I spy" and move all the way to reading comprehension.

#### Arts, Logic & creativity:

Our Arts class includes an introduction to colors (primary and secondary) as well as many games using colors and shapes. We also offer a pre-coding game, reasoning games and music games to discover pitches, rhythm and nursery rhymes.

#### Practical Life:

Because children this age love to reproduce everyday activities done by adults, Maria Montessori included a range of activities like dusting, taking care of plants, cleaning a mirror or washing clothes. Montessori Preschool welcomes users in a digital school with lockers, a corridor full of daily responsibilities or discoveries.

#### Device Requirements:

- \* iPhone, iPad, and iPod touch
- \* Requires iOS 7.0 or later
- \* 334 MB

#### Pricing and Availability:

Montessori Preschool 1.1.1 is Free (with in-app purchases) and available worldwide in English, Chinese and French through the App Store in the Education category. There is also an Android version available on Google Play. Subscription is \$4.99 (USD) a month or \$39.99/year (30% off). The first month is free. Founded by Montessori teachers who have had years of classroom experience with hundreds of children, Edoki Academy is determined to offer qualitative educational apps on iPad and iPhone. Their objective is to provide parents and teachers Montessori based apps to use at home or at school. The Montessori Method relies on building autonomy and self-confidence by letting children do by themselves and offering them self-correcting materials to manipulate and respecting their individual rhythm.
