

Wonder Painter Uses AR Technologies to Turn Drawings into Fun Animations

Published on 07/13/17

Beijing Xiaoxiaoniu Creative Technologies Ltd. releases Wonder Painter 1.4.0, a minor update to its creative new entertainment app for iOS devices. Using patented AR technologies, Wonder Painter lets anyone turn drawings, paintings, sketches & more into fun animations. Users simply point their iPhone towards any drawing, painting or sketch they've created and press the app's Magic button to snap a picture. In version 1.4.0, users can now share their creations on Twitter and Facebook and more.

Beijing, China - People of all ages - from young children to senior citizens and everyone in between - who have ever dreamed of bringing their drawings, paintings or sketches to life, can now turn their fantasy into reality by downloading the delightful and creative new Wonder Painter. Created by Beijing Xiaoxiaoniu Creative Technologies Ltd., Wonder Painter uses patented creative augmented reality (AR) technologies to bring high-tech and art together, and unleash the imagination in every user.

Here's how it works: with remarkable ease, users simply point their iPhone towards any drawing, painting or sketch they've created - or anything that they come across, such as a logo, illustration, toy, clay, origami, and so on - and press the app's "Magic" button to snap a picture.

Within seconds, Wonder Painter brings the drawing or item to life in a fun and playful animation, which users can save to their device, and share with their friends. There are also multiple themes to choose from, which makes the creative process even more imaginative and fun.

"One of the best things about Wonder Painter is that people don't have to have artistic talent or skill," commented Xiaoxiaoniu Creative Technologies. "All they need is their imagination, and within seconds they can create something truly unique that will put a smile on their face and boost their creativity. It's a great app for anyone who needs a break from their stressful day, and especially for kids who want to see their delightful drawings and more come to life right before their eyes!"

Device Requirements:

- * iPhone, iPad, and iPod touch
- * Requires iOS 9.0 or later
- * 90.6 MB
