

## **A Precise Qibla Compass Direction for Muslim Prayer (English & Arabic)**

Published on 07/17/17

Independent developer, Nada Fahim today introduces Qibla Compass Direction (English & Arabic) 1.03 for iPhone, iPad and iPod touch. The Qibla in Mecca is the direction Muslim faces when praying. If you are at a remote location and find it difficult to identify the Qibla direction to say your prayers, Qibla Compass Direction will automatically find it based on your current location. The app uses GPS to find your location or an internet connection to update your location.

Dubai, United Arab Emirates - Independent developer, Nada Fahim today is proud to announce the release and immediate availability of Qibla Compass Direction (English & Arabic) 1.03 for iPhone, iPad and iPod touch. Have you ever been out and about somewhere where there is no designated space for prayers? So you pick a secluded, clean spot and prepare to pray. But wait! You don't know which direction to pray in and you've forgotten your compass. Well... fret not! Qibla Compass Direction enables the user to pinpoint the direction of Mecca in the most precise way.

A must app for all Muslims, this invaluable app features a compass and Qibla direction finder that points accurately towards the Kaaba from practically anywhere in the world. Find your Qibla direction to the Kaaba in Mecca as the arrow will keep pointing a green line in the Qibla direction. Simple-to-use and very accurate, this app contains many features, offers a full English interface, and does not depend on an internet connection. Very useful when traveling or at a new place. Will calculate the direction of Qibla even on your iPod touch!

Qibla Compass Direction app supports all countries and continents. The app uses GPS to find your current location or an internet connection to update your location. You just need to open the app and place your device on a flat surface and away from ferrous metal and magnetic field. The best feature about Qibla Compass Direction is that it has an Arabic version, which is the most precise Arabic Qibla compass app.

Experience the elegant and smooth flow of the compass that will direct you to the correct location of Kabaah and Mecca (Saudi Arabia). Then you can perform your salah with peace.
