Published on 07/21/17

In celebration of this release, The Simpleum Media GmbH is pleased to announce a website promotion, offering a 30% discount on SimpleumSafe for Mac. The company is also introducing their new Store. SimpleumSafe is an easy-to-use app for password-based encryption of personal and professional data. Thanks to AES-256 encryption technology, all kinds of digital information are well protected against attacks from the Internet, as well as unauthorized access. On sale 22nd thru 23rd of July 2017.

Hamburg, Germany - In celebration of this release, The Simpleum Media GmbH is pleased to announce a website sale promotion, offering a 30% discount on SimpleumSafe for Mac. The company is also introducing their new Store. SimpleumSafe is an easy-to-use app for password-based encryption of personal and professional data. Thanks to proven AES-256 encryption technology, used by government, banks and industrial enterprise, all kinds of digital information are well protected against attacks from the Internet, as well as unauthorized access.

Ingeniously simple, simply ingenious. SimpleumSafe combines intuitive operation and ease-of-use. Much of what users have already learned during daily use of the Mac can be applied using the Encryption-App.

Opening the safe and decryption of files is done via a user-defined password. Moreover, SimpleumSafe offers numerous tools for importing, organizing, tagging, and editing of the files. SimpleumSafe is designed for the average consumer, who wants to protect and archive personal information, as well as for companies who are interested to protect personal information and secret documents from unauthorized access.

Features:

- * Simple and intuitive usability
- * Strong encryption with AES-256
- * Extensive support of Drag & Drop
- * Organize files similar to Mac Finder
- * Mark files and folders with tags
- * Store safe locally, on USB device, and in the cloud
- * Create as many Safes as you want
- * Comment files and folders
- * Mark files as Favorites for fast access
- * Number of files and size is only limited by the free space of your device
- * Show file content for Microsoft Office and iWorks documents, PDF, Images, Text, Movies, Audio and more
- * Target directory chooser (Import, Copy, ...) shows the last 10 used directories for faster selection
- * Picture viewer

New in Version 1.3.0 for Mac:

- * App-to-App Drag & Drop: You can e.g. drag an mail, appointments, contacts, photos etc. directly into a safe.
