

Fiete Puzzle - Learning App Draws Kids Under Its Spell

Published on 07/24/17

Ahoiii Entertainment announces Fiete Puzzle - Kids Games with Animals 1.1 for iOS devices. The free puzzle game is suitable for kids 2 years old and up and supports childrens' language skills, visual perception, and the ability to recognise shapes. Impressive camera tracking shots turn this puzzle into something very special and let children discover cute animated animals in beautiful picture book landscapes.

Cologne, Germany - Ahoiii Entertainment is proud to announce the release and immediate availability of Fiete Puzzle - Kids Games with Animals 1.1 for iPhone, iPad, and iPod touch devices. Inspired by classical lift-out puzzles, the educational game Fiete Puzzle is very easy to play. The intuitive controls and large puzzle pieces are ideal for infants.

What turns the puzzle game into something very unique are the camera tracking shots. The camera movements make the kids feel like they can puzzle themselves into the 9 exciting puzzle motifs. Kids can discover their hero Fiete in gorgeous picture book landscape, for example at the fire brigade, in the zoo, at the construction site or on the farm.

At each camera stop the little ones have to recognize where the displayed puzzle parts fit. And after each finished puzzle the children can once again move through the puzzle to interact with the animals and figures.

By the way: Fiete is the name of a little sailor. He is the hero of the kids apps by Ahoiii Entertainment, with whom children worldwide can learn something through playing.

"What began with the focus on creating beautiful and fun apps for kids, that encourage the children to learn something through playing, has led to developing the brand Fiete," explained Sarah Walitzek, Project Manager for Köln based Ahoiii Entertainment UG. "It all started when two of the team members of Ahoiii became parents. The first app Ahoiii developed was actually made for their own kids. Just for fun they uploaded the lovingly and beautiful illustrated app with sailor Fiete on the App Store and were finally overwhelmed by the enthusiastic feedback from thousands of parents. With the intuitive gameplay, the handmade look and his friendly character Fiete conquered kid's and parent's hearts over night worldwide. Since then the world of sailor Fiete grows constantly."
