

Quick Notes - Quick note taking iOS app

Published on 07/31/17

Independent developer, Michal Kos today announces Quick Notes 2.0.1, an update to the popular productivity app for iOS devices. Quick Notes is a simple and efficient app for writing notes that you want to access anywhere, anytime in your Notifications Center or on Apple Watch. Rewritten from the ground up, version 2.0.1 has been completely redesigned using the latest abilities of OS, including Apple Watch and Spotlight support Hardware Keyboard for iPad, and so much more.

Prague, Czech Republic - Independent developer, Michal Kos is pleased to announce the release of a new version of an iOS app Quick Notes. Simple and efficient app for writing notes that you want to access anywhere, anytime in your Notifications Center or on Apple Watch.

With Quick Notes you can:

- * Quickly write your notes
- * Set a reminder when you need to be reminded of your notes
- * See your notes anywhere, anytime in Today section of Notification Center
- * See your notes on Apple Watch app
- * Search notes using system search
- * Synchronize your notes using iCloud

Unlock all features with one In-App purchase:

- * History of your notes
- * Night theme that automatically changes according to the brightness intensity
- * Use dictation on your Apple Watch
- * More features will be added in the future

Quick Notes is about efficiency. You are not filled with clutter you don't need. It's very convenient for quick notes on the go.

Device Requirements:

- * iPhone, iPad and iPod touch
- * Requires iOS 10.0 or later
- * Optionally Apple Watch
- * 34.9 MB
