

B-Eng releases File Manager Pro 1.2 - Now available on the Mac App Store

Published on 08/10/17

B-Eng today announces File Manager Pro 1.2, an important update to their popular dual panel file manager for OS X. File Manager Pro is a file managing tool with a dual panel layout that allows easy control and overview when handling and managing files and folders. File Manager Pro allows simple tasks like copy/move/delete files and folders as well as compressing/decompressing files, synching directories and even visual, interactive overview of drives and directories.

Fehraltorf, Switzerland - B-Eng today is pleased to announce the latest update for File Manager Pro, Version 1.2, to be immediately available on the App Store. Version 1.2 introduces additional double click functions for many tasks, making navigating much quicker.

File Manager Pro comes with a dual panel layout for best overview and control for any task related to file handling. The capabilities of File Manager Pro range from basic copy/move/delete tasks to compressing and decompressing files as well as comparing and synching directories, completed with an interactive, visual overview for a drives or folders usage.

The main features of File Manager Pro include:

Main Features of File Manager:

- * One click copy function
- * Folder sync
- * Folder and file compare
- * Interactive, visual disk tools
- * Movie posters assignable as file icon
- * Direct access for movie info
- * Decompress and compress files
- * Hex editor

"In order to make working on a Mac even more simple and relaxed we made File Manager Pro faster and added double click functions for many tasks. Working with a dual panel layout is far more effective when moving, copying and comparing files and folders due to better overview. When developing apps - or any software for that matter - moving and comparing files is an inevitable task, which means that File Manager Pro is a tool that was born because we needed it." as Christian Schaffner, General Manager of B-Eng explains. "Not being a programmer myself but rather a technician that ended up in an office chair I like File Manager Pro for its simplicity and effectiveness. It's not like software is the only type of data that comes with different files you need to keep track of" as Christian Schaffner adds.

System Requirements:

- * OS X 10.11 or later
- * 64-bit processor
- * 17.1 MB

Pricing and Availability:

File Manager Pro 1.2 is 18.99 USD (or equivalent amount in other currencies) and available worldwide exclusively through the Mac App Store in the Productivity category. Promo codes are available to members of the press. For more information, please contact Christian Schaffner.
