

B-Eng releases File Manager Pro 1.4 - Dual Panel File Manager for OS X

Published on 08/18/17

B-Eng today announces File Manager Pro 1.4, an important update to their popular dual panel file manager for OS X. File Manager Pro is a dual panel file managing tool with extra functions like interactive disk overview, compress/uncompress tool, and more. Users can easily copy/move/delete files and folders as well as compressing/decompressing files, synching directories and more. Version 1.4 introduces tag infos along with a fix for excessively big pdf files, as well as performance improvements.

Fehraltorf, Switzerland - B-Eng today is pleased to announce the latest update for File Manager Pro, Version 1.4, to be immediately available on the App Store. Version 1.4 introduces tag informations along with performance improvements.

File Manager Pro comes with a dual panel layout for best overview and control for any task related to file handling. Along with basic functions like copying and moving files and directories File Manager Pro also allows to compress and uncompress files, compare files and folders, synching files and directories and manipulating content of folders and files from an interactive, graphical overview.

Improvements in Version 1.4:

- * Tag informations
- * Performance improvements

Main features of File Manager Pro include:

- * One click copy function
- * Folder sync
- * Folder and file compare
- * Interactive, visual disk tools
- * Movie posters assignable as file icon
- * Direct access for movie info
- * Decompress and compress files
- * Hex editor

"Now that we all use File Manager Pro we realize what we all missed, and started to add new functions to the already existing app. Just because nobody in our team likes to work with the Finder app doesn't mean we shouldn't include specific features of it. That's why we added tag informations, which is probably the most liked feature of the Finder app. Of course we are always improving our apps, which means that users will not only have additional features but will also notice an improved overall performance of the File Manager Pro."

System Requirements:

- * OS X 10.11 or later
- * 64-bit processor
- * 17.3 MB

Pricing and Availability:

File Manager Pro 1.2 is 18.99 USD (or equivalent amount in other currencies) and available worldwide exclusively through the Mac App Store in the Productivity category. Promo codes are available to members of the press. For more information, please contact Christian Schaffner.
