

MacX DVD Ripper Mac Free Edition - Updated for New DVD Movies

Published on 08/19/17

MacXDVD Software announces MacX DVD Ripper Mac Free Edition, a significant upgrade to its free DVD ripper. Aimed at creating immersive movie experience on the go, MacX DVD Ripper Mac Free Edition allows users to obtain digital copies of the latest released DVDs. This version adds support for the latest movie releases on DVD. Its improved algorithm can now decrypt any new DVD movies and turn content from DVD disc into MP4, MOV, H264, other major formats.

Chengdu, China - MacXDVD Software, a leading provider of movie and video solution for the home, announces MacX DVD Ripper Mac Free Edition, a significant upgrade to its free DVD ripper to let newly-released DVD movies make their way easily to users' fingertips. MacX DVD Ripper Mac Free Edition recently adds the support for the latest movie releases on DVD. Its improved algorithm can now decrypt any new DVD movies and turn content from DVD disc into MP4, MOV, H264, other major formats. It becomes the world's first free DVD ripper for Mac that offers the immediate ability to let users house any new DVD movies and TV shows in the cloud, computer, iPhone, iPad or other mobiles whenever they're looking to travel light.

Travelling is regarded as a love-bomb for kids by more families and becomes the hottest and fastest-growing family event during the summer holiday. The recent AAA survey indicates that one third (35%) of American families are taking long journey, and 70% of which are planning three or more vacations. Every time during the year, those popular new released DVD animated and live-action hits become indispensable for the layovers during longer journeys by car, plane or train to keep young-age offspring engaged and occupied. Parents need to find a way to play DVD movies with convenience and simplicity, and that's the idea behind MacXDVD's free DVD ripper for Mac.

The revamped MacX DVD Ripper Mac Free Edition is the No.1 Mac DVD ripper freeware that lets customers create standard- or high-definition movie version in MP4, H264, MPEG4, MOV, MP3, iTunes, and more other major digital formats from any DVDs they throw to the program. It solves the dilemma with other free DVD ripping software when deal with new titles. For example, users constantly run into such problems as crashing, being stuck, no valid title found, no audio with Handbrake Mac program.

Mixing the convenience of digital movie playback with the full quality of a disc format, MacXDVD aims to deliver the best of both worlds. To achieve this, the company has been putting a great deal of effort, to pack its award-winning free DVD ripper for Mac with tailored and advanced support to the latest DVD movies, 99-title discs, multiple-track TV shows, including the newly-arrived Kong: Skull Island, The Boss Bay, The Fate of The Furious, Beauty and the Beast and more.

MacX DVD Ripper Mac Free Edition works as a truly sanity saver to steer clear of taking cumbersome DVD discs around and produce immersive and cinematic experience anywhere. It has built-in video settings that users can watch on any mobiles, including iPhone 7, iPhone 7 Plus and iPhone SE, iPad Pro, Mini 4, Samsung Galaxy S7, other Android phones and tablets. DVD movies easily go from home theaters to portable screens with content quality precisely matching that of the original disc.

"We understand that sometimes taking kids on a trip is not fun, especially with toddlers and small children," said Jack Han, CEO of MacXDVD Software. "Parents will want something to have their kids concentrated on the road, like kids movies. We are thrilled to offer a free and easy way to rip DVD movies to hard drive and get the finest new DVD titles for easier trips in a truly cinematic form."
