Swift Apps today introduces The Tiger 1.2, the company's new Online RPG Simulator for iOS and Android devices. The Tiger introduces a fresh, beautifully crafted environment of a jungle forest. You can choose the type of your tiger to suit your taste. Gaining experience while hunting or challenging other players lets you upgrade its skills and abilities, choosing from many available paths and options. The two game modes can be always switched, depending on your gameplay style and preferences.

Krakow, Poland - Swift Apps today is pleased to announce the release of The Tiger 1.2, the company's new Online RPG Simulator for iOS and Android devices. Released as another product from the successful series of 3D multiplayer RPGs for mobile, in this game you become a powerful Tiger and wander through the wild jungle hunting for prey. You can create a unique character, develop it and play with people from all over the World in two real-time multiplayer modes.

The Tiger introduces a fresh, beautifully crafted environment of a jungle forest. You can choose the type of your tiger to suit your taste. Gaining experience while hunting or challenging other players lets you upgrade its skills and abilities, choosing from many available paths and options.
