

## **VideoGo Ltd releases Logo2Go 1.1 for iOS - Video Branding Solution**

Published on 08/22/17

UK based VideoGo Ltd today announces Logo2Go 1.1, an update to the company's professional level video branding solution app developed exclusively for iOS devices. Logo2Go is a great solution for the perfect video recording. Not only can you add your logo or image to your video (supports alpha channel), but you can save unlimited presets, scale, rotate, reposition anywhere, add transparency. Render your video and share in minutes, beat your competition to the post.

Letchworth Garden City, United Kingdom - VideoGo Ltd today is proud to announce the release of Logo2Go 1.1, an update to the company's professional level video branding solution app developed exclusively for iPhone, iPad and iPod touch devices. Logo2Go is the ultimate series of video apps to create and share your own branded broadcast quality videos quickly and easily from your mobile device.

Perfect for vloggers, small business and the corporate sector, Logo2Go offers a nicely designed interface that is simple to operate. It ships with a variety of features which are easy to understand and fits well within multiple environments. Logo2Go aims to protect your video with a watermark, or burns your logo into your video just like in the TV industry. Look professional and be remembered.

Some Features include:

- \* Add Logo or Image which support Alpha Channel, scale, rotate, reposition
- \* Save your presets, access anytime, no need to start from scratch once you have created your branded package
- \* Templated style output, no need for manual animation or keyframes
- \* Buttons guide user through the production process
- \* Share via email or your favourite social media platforms

"Our team have over 40 years experience in the broadcast, television and video industries. And with the expanding mobile market, decided to create a suite of video apps for use with your mobile device," explained Joph Hord, co-founder of UK based VideoGo Ltd. "With a template structure in mind, we create apps which enable our customers to speed up their workflow and produce consistency in their brand."

In version 1.1, a new Explainer/Tutorial video was added to help users better understand the Logo2Go app in more detail.

We have re-designed the User Interface to make it more modern and navigationally robust. The buttons now guide you through the production process, to make your time operating the App, as fast as possible.

Device Requirements:

- \* iPhone 4 or later, iPad, and iPod touch
- \* Requires iOS 9.0 or later
- \* 8.2 MB

Pricing and Availability:

Logo2Go 1.1 is 1.99 GBP (or equivalent amount in other currencies) and available worldwide exclusively through the App Store in the Photo & Video category. Promo codes are available to members of the press. For more information, please contact Joph Hord.
