

Maintain Releases Cocktail 11.0 (High Sierra Edition)

Published on 09/26/17

Maintain today announces Cocktail 11.0 (High Sierra Edition), a new edition of Cocktail for users running macOS High Sierra 10.13. Cocktail is a general purpose utility for macOS that lets users clean, repair and optimize their Macs. This version adds compatibility with macOS High Sierra 10.13 and contains miscellaneous bug fixes, improvements and enhancements as well as updated Automator actions and Help files. It also comes with an automatic Pilot mode and much more.

Ekerö, Sweden - Maintain today is proud to announce the release of Cocktail 11.0 (High Sierra Edition), a new edition of Cocktail for users running macOS High Sierra 10.13. Cocktail is a general purpose utility for macOS that lets you clean, repair and optimize your Mac. The application serves up a perfect mix of maintenance tools and tweaks, all accessible through a clean and easy to use interface. Cocktail's features are arranged into five categories that helps you manage various aspects of your computer. It also comes with an automatic Pilot mode that allows you to simply press a button and relax, knowing that Cocktail will take care of the rest.
