Alexandria, Virginia - Vito Technology, an award-winning developer of educational apps for Android and iOS, is proud to announce the release of Monster Park - Dino World 1.0.1 for iOS, the next generation augmented reality app where real life stand hand-in-hand with virtual objects and animals. Bring to life dinosaurs who lived thousands of years ago so you can interact with them and experience how it would look like if they existed today. The all-new augmented reality Monster Park is designed exclusively for iOS 11 was shown off during Apple Event '17.

Monster Park - Dino World is a new augmented reality game that lets you see and rule incredibly lifelike dinosaurs with your device's camera. See dinosaurs in real size, bring those huge monsters into your world, walk together and make cool photos and videos. ARKit with precise tracking and light detection makes this whole experience incredibly powerful and realistic.

Key features:

- * Incredible lifelike dinosaurs (tyrannosaurus rex, pteranodons) in your real-world location
- * Placing a portal to the dinosaurs' ancient world
- * Control over the dinosaur movements
- * Different modes: make the dinosaur follow you, run away or just move freely
- * Photos and videos of dinosaurs in the real world

While walking with tyrannosaurus rex and pteranodons not only will you be able to see them as big as they were in real life, but also to direct and control their movements. Be sure to open a portal, go through it and take a look at the incredible world of dinosaurs with its wonderful waterfall and awe-inspiring nature. How to rule a dinosaur? Tap any place on the ground to direct the dinosaur to this point. Hit the monster and see what will happen.
