

Batch PDF Creator for Microsoft Word Now Supports macOS High Sierra

Published on 10/16/17

Zevrix Solutions announces BatchOutput DOC 2.5.4, a compatibility update to company's output automation solution for Microsoft Word. BatchOutput is the only tool on the Mac market that automates printing and exporting of multiple Word documents to PDF. The software offers PDF security, image compression, variable file names, export as single pages and other options. The new version makes BatchOutput DOC a 64-bit program and introduces support for the recently released macOS 10.13 High Sierra.

Toronto (ON), Canada - Zevrix Solutions announces the release of BatchOutput DOC 2.5.4, a compatibility update to its output automation solution for Microsoft Word on macOS. The only batch processing tool for Word on the Mac market, the software helps users eliminate repetitive tasks through automation of printing and professional PDF output.

The new version introduces support for the recently released macOS 10.13 High Sierra and is offered as a free update to licensed users. BatchOutput XLS has also been upgraded to 64-bit architecture, which improves the app's performance and reduces the likelihood of memory-related errors.

"Love this app. It makes the process of saving collections of Word docs to PDF so much faster and easier," writes the user Danni-L on MacUpdate. "Great configuration features, and great time-saving value."

With BatchOutput DOC, users only need to select the Word files they wish to output and set up processing options. The software will do the rest automatically saving the time and hassle of opening and exporting each file by hand. In addition to batch printing, BatchOutput DOC allows to carry out professional PDF production directly from Word, bringing advanced PDF creation options right to the user's fingertips:

- * Print and export multiple Word documents to PDF with a single click
- * Split Word files into single page PDFs
- * Variable output file names
- * Reduce PDF file size and optimize documents for web, print and mobile devices
- * Encrypt and password-protect PDF documents
- * Change PDF color tone, brightness and other qualities

BatchOutput DOC is a part of the Zevrix BatchOutput family of products which also includes output automation solutions for Microsoft Excel, PowerPoint, Adobe InDesign and PDF workflows.

Pricing and Availability:

BatchOutput DOC can be purchased for \$19.95 (USD) from the Zevrix Solutions website as well as from authorized resellers and Mac App Store. Trial is also available for download. The update is free for users of version 2 and \$20 from version 1. BatchOutput DOC requires Mac OS X 10.6-10.13 and Microsoft Word 2008, 2011 or 2016.
