

LinkOptimizer for Adobe InDesign Now Supports Creative Cloud 2018

Published on 10/23/17

Zevrix Solutions announces LinkOptimizer 5.2.1, a compatibility update to company's workflow automation solution for Adobe InDesign. LinkOptimizer lets users automatically scale and crop images to their InDesign dimensions at specified target resolution, convert image formats, adjust sharpening, convert colors, run Photoshop actions, rename links and more. The new version makes LinkOptimizer compatible with the 2018 release of InDesign and Photoshop CC featured as part of Adobe Creative Cloud.

Toronto (ON) Canada - Zevrix Solutions today announces LinkOptimizer 5.2.1, a compatibility update to the company's workflow automation solution for Adobe InDesign. Awarded 4 out of 5 stars by Computer Arts magazine, LinkOptimizer automates complex image manipulation tasks and allows to significantly reduce the size of InDesign links, save processing time and reduce production costs.

The new version makes LinkOptimizer compatible with the recently released InDesign and Photoshop CC 2018. The update also makes LinkOptimizer a fully 64-bit app and is offered free of charge to licensed users. The same version of LinkOptimizer can be used with any version of InDesign from CS5 and later.

"LinkOptimizer makes me extremely happy", says Nynke Tiekstra, the owner of design studio ColtsfootMedia in Friesland, Netherlands, "It converted 10000 images in a 1800 pages project saving us at least 40 hours work, and it proved to be 100% accurate."

LinkOptimizer works automatically with Photoshop to eliminate the excess image data of InDesign links, perform essential image adjustments and convert image formats. For example, with just a click of a button users can:

- * Scale and crop images to match their dimensions in InDesign
- * Change their resolution to 300 dpi
- * Convert RGB images to CMYK
- * Resave JPEG files as TIFF
- * Run a Photoshop action on each image.

At the end of processing, LinkOptimizer reimports images to InDesign at 100% in their precise position. As a result, users can save gigabytes of disk space, accelerate document output, reduce job turnaround and cut costs through faster processing.

Pricing and Availability:

LinkOptimizer can be purchased from Zevrix website for \$259.95 (Light version: \$179.95) as well as from Adobe Exchange and authorized resellers. Trial is also available for download. The update is free for LinkOptimizer 5.x users and \$130 to upgrade from previous versions. LinkOptimizer requires macOS 10.7-10.13 and Adobe InDesign / Photoshop CS5-CC 2018.
