

Zevrix Solutions Releases LinkOptimizer 4.1.6 for Adobe InDesign

Published on 10/26/09

Zevrix Solutions today announces LinkOptimizer 4.1.6, a maintenance update to its popular workflow automation solution for Adobe InDesign. Awarded 4 out of 5 stars by Computer Arts magazine, LinkOptimizer allows to reduce InDesign job size and speed up processing by eliminating excess image data, performing essential image adjustments and converting file formats. The new version addresses several performance and stability issues related to settings presets, user interface and image processing.

Toronto (ON), Canada - Zevrix Solutions today announces the release of LinkOptimizer 4.1.6, a maintenance update to its popular workflow automation solution for Adobe InDesign. Awarded 4 out of 5 stars by Computer Arts magazine, LinkOptimizer automates complex image manipulation tasks allowing to significantly reduce the size of InDesign job, save processing time and reduce production costs.

LinkOptimizer works automatically with Adobe Photoshop to eliminate the excess image data of InDesign links, perform essential image adjustments and convert various image formats. For example, with just a click of a button users can:

- * Scale and crop images to match their dimensions in InDesign
- * Change their resolution to 300 ppi
- * Convert all RGB images to CMYK
- * Resave all JPEG images as TIFF
- * Run a Photoshop Action on each image

At the end of processing, LinkOptimizer will reimport images to InDesign at 100% in their precise position. The resulting savings of disk space, time and resources can be dramatic:

- * Save gigabytes of disk space
- * Accelerate document output (for image-rich projects, the time can be reduced from hours to minutes)
- * Save endless hours - and even days - of optimizing images manually
- * Reduce job turnaround drastically and cut costs through faster processing

The new version addresses several important performance and stability issues related to settings presets, user interface, Photoshop processing and InDesign CS2 compatibility. This update is strongly recommended to all customers.

Pricing and Availability:

LinkOptimizer 4.1.6 can be purchased from the Zevrix Solutions web site for \$239.95 (USD) as well as from authorized resellers. The update is free for the LinkOptimizer 4.x users and \$95.98 to upgrade from previous versions. Trial is also available for download. LinkOptimizer is available for Mac OS X 10.4.2-10.6, a Universal Binary, and works with Adobe InDesign CS-CS4.
