

CoachGuitar updated for iOS 11 - 6 Million Downloads and Counting

Published on 11/14/17

Manomaya SA released Coach Guitar 5.0, an important update to their wildly popular guitar learning app for iOS and Android devices. Coach Guitar is perfect for absolute beginners who are picking up a guitar for the first time, to garage band heroes, to professional and performing musicians who want to improve their craft. Videos include simultaneous neck, close-up and full colour-coded fretboard views that update in real-time, along with an arrow indicating the strum direction direction.

Paris, France - Fans of the guitar learning app CoachGuitar can now head to the App Store and download version 5.0, which is now compatible with iOS 11 (64-bit devices). The app, which has been downloaded more than 6 million times, remains compatible with iOS 8 and above.

CoachGuitar is the world's most popular guitar learning app, which has earned more than 15,000 5-star reviews from users in over 140 countries, and across all skill levels: from absolute beginners who are picking up a guitar for the first time, to garage band heroes, to professional and performing musicians who want to improve their craft. Key features include:

- * More than 600 titles, from chart-topping hits to classic favorites from artists like Queen, Pink Floyd, Daft Punk, the Eagles, the Beatles, and more. Back tracking with voice is also available.
- * All lessons are created by professional music teachers, who have applied their methods in music schools with thousands of students.
- * High-definition video lessons - with very helpful slow motion and loop options - that provide detailed, step-by-step instruction that focuses on learning and playing, instead of music theory.
- * An animated color-coded fretboard that rapidly speeds-up the learning process, while making the experience fun and rewarding.
- * Right and left-handed views.
- * Structure and chord diagrams for all songs, along with guitar tabs.
- * An innovative guitar tuner with more than 80 tuning options.

To help ensure that guitarists can follow along seamlessly, videos include simultaneous neck, close-up and full colour-coded fretboard views that update in real-time, along with an arrow indicating the strum direction direction. The color-coding displays the correct fingering, which makes CoachGuitar an exceptional tool for teaching correct technique to beginners, while also allowing more experienced players to hone their fretboard dexterity.

"We're very proud that CoachGuitar has now been download over 6 million times" commented Manomaya SA's CEO Boris Douarre. "Being able to help guitarists around the world learn their favorite songs and share the passion that we have for all styles of guitar playing is a goal that brings us great pleasure to deliver."
