Traverse City, Michigan - MacUpdate, a leader in Mac apps for over 20 years, has bundled 6 top apps for file recovery, system cleaning, productivity and more all together for just \$29.99, a savings of over 90%. The Cyber Monday Bundle is out early so you can take care of yourself first with apps to help keep you and your Mac running efficiently.

We rely so much on our Wi-Fi connections at work and at home. We have included NetSpot Pro (a \$150 value) in this bundle so you can map out your home or office to show dead zones. Having this detailed map can help you deploy your Wi-Fi for optimal coverage and performance. Included in the Pro version of this software is an additional activation you can give to your office IT department.

Also included are three tools for managing your disk data. Browse through your Time Machine back-ups with Back-In-Time and find the particular version of any file in your back-ups from the last 30-days that you thought was lost forever. Do Your Data Recovery Professional will recover files that have been deleted, removed from trash, left on corrupted or re-formatted drive, and even recover photos from old memory sticks. Then AweCleaner's simple interface will help you find and remove large files, memory sucking apps, and other junk from your system in just a few clicks.

Mac users that can get distracted will appreciate Vitamin-R. This personal productivity tool helps you structure short bursts of distraction-free, highly focused activity. Use that extra time to enjoy some of your favorite videos, and save them from any streaming site with PullTube, the video downloading app that can grab entire playlists with a few clicks. Perfect for preparing for entertainment during your holiday travels.

Valued at over \$300, you can get this bundle for only \$29.99 (USD) for a limited time. For more information, please visit MacUpdate online.
