

## RC Club - The Ultimate Augmented Reality Radio Control Simulator

Published on 01/04/18

Barcelona based Abylight Studios today introduces RC Club 1.0, the ultimate radio control simulator for iOS11. Thanks to the augmented reality technology powered by ARKit, RC Club combines real-world physics with intuitive controls to drive a bunch of amazing cars wherever you are. RC Club is a realistic simulation of a radio controlled car performing as it would on the real world: gravity, speed, acceleration, weight, friction, forces, lights and shadows

Barcelona, Spain - Warm up your engines and prepare to go full throttle! Abylight Studios today is proud to announce the worldwide release of RC Club 1.0, the ultimate radio control simulator for iOS11. Thanks to the augmented reality technology powered by ARKit, RC Club combines real-world physics with intuitive controls to drive a bunch of amazing cars wherever you are. Feel the rush of adrenaline performing impressive stunts and hit the road anytime, anywhere.

RC Club is a realistic simulation of a radio controlled car performing as it would on the real world: gravity, speed, acceleration, weight, friction, forces, lights, shadows... RC Club is an intuitive simulator accessible to all. Drive inside a supermarket or in the street, every circuit can be possible!

### Features:

- \* Real world RC simulation
- \* Stunning graphics with real physics
- \* Sport Car, Drifting Car, Monster Truck or Cargo Truck, each one with its own physical performance
- \* User-friendly interface for all ages

### How to Play:

- 3) Select a car and one of the available modes.
- 2) Aim to a surface and place the virtual vehicle.
- 1) Go!!

### Future Plans:

We look forward to learn what the players think and get their feedback to continue evolving the game. So, RC Club will keep growing in upcoming updates: customization and balancing options for cars, more physics effects or multiplayer mode among others. For more information, visit Abylight Studios online.

Compatible Devices - RC Club requires iOS 11 and one of the following devices:

- \* iPhone SE
- \* iPhone 6s / iPhone 6s Plus
