Dublin, Ireland - Independent development team Lively Mind is today proud to announce the release and immediate availability of Baby Songs and Lullabies 1.03 for iPhone, iPad, and iPod touch devices. The app includes a collection of 18 beautiful recordings that were specially designed to help babies and toddlers calm down and fall to sleep. The app's timer feature allows parents to set how long the music will continue to play before turning off.

When it's time for a nap or to lay down to sleep for the night, Baby Songs and Lullabies allows parents to softly play the dulcet and soothing tones of any of the 18 well-known lullabies, classic children's songs, and nursery rhymes that are included in the free app. Parents and kids can sing along to the music, or they can quietly listen as the music relaxes the child and lulls them to sleep.

"I would guess that almost everyone has had lullabies sang to them as a small child, in an effort by their parents to get them to calm down and fall asleep at nap time or at the end of a busy day," says Eamon Mc Nulty, owner of Lively Mind. "Our 'Baby Songs and Lullabies' app makes it easy for parents to play peaceful classic lullabies and songs for their children, helping to calm them and drift off to sleep, allowing them to get plenty of rest for the next day."

The app's classic tunes include:

- * Baa Baa Black Sheep
- * The Cradle Song
- * Ding Dong Dell
- * Frere Jacques
- * Hey Diddle Diddle
- * Hickory Dickory Dock
- * Hush Little Baby, Don't You Cry
- * Jack and Jill
- * London Bridge is Falling Down
- * Mulberry Bush
- * Pop Goes the Weasel
- * Ring Around the Rosie
- * Rock A Bye Baby
- * Row Row Row Your Boat
- * This Old Man
- * Three Blind Mice
- * Twinkle, Twinkle, Little Star
- * Yankee Doodle

The Baby Songs and Lullabies app includes a handy countdown timer that gives parents the option to set a designated period of time for the selected tune to play, with options ranging from one minute to sixty minutes. The feature allows parents to select the perfect length of time to lull their child off to dreamland. This allows them to leave the child's bedroom if needed, confident the music will continue to play, turning itself off after the

child has drifted off to sleep.

While the app is perfect for use with babies and toddlers to lull them to sleep, it also makes for an entertaining way for parents to have fun teaching their older offspring the words to the 18 popular songs and nursery rhymes by enjoying a sing-a-long time, which can be fun for the whole family.

"The Android version of the 'Baby Songs and Lullabies' app is a well-established favorite with Android device users of all ages, racking up well over a million downloads so far," continues Eamon. "We are confident that iOS users around the globe will enjoy the app as well. It provides the opportunity for them to share and enjoy these classic songs, lullabies, and nursery rhymes with their children."
