Chengdu, China - iMobie Inc., an advanced software company focused on Android and iOS, today announced the update of PhoneRescue, the ultimate data recovery tool, to recover data from all Android phones and tablets, including Samsung, Huawei, Xiaomi, LG, Sony, and others. No brand limit anymore. The latest version is 3.6.0, which works on both Mac and PC. Built on second-to-none technologies, PhoneRescue will dig deep into your phone and bring back all your lost messages, photos, contacts, music, videos, app data and more with the highest data recovery rate in the industry - even restore your most valued data directly to your phone.

"PhoneRescue started to retrieve data for 7 mainstream brands since last year, including SAMSUNG, Google, HTC, etc. Till now, we've received a lot of feedback from users who use some other Android brands, and they hope our PhoneRescue can also help them to retrieve lost data in the easiest and fastest way," said Frank Kong, CEO of iMobie Inc. "That's why we improved PhoneRescue to recover data from all Android devices. With this updated PhoneRescue, all Android users now can enjoy a hassle-free experience to recover their precious data in minutes from any kind of Android phone or tablet."

Check the detailed features of PhoneRescue:

**Recover Data from All Android Phones and Tablets with Ease:**

PhoneRescue now supports all Android devices, like SAMSUNG, HUAWEI, LG, etc., and brings back your precious photos, important messages and more with one simple click. No matter what kind of Android phone or tablet you use, PhoneRescue will always find the best way for you to quickly scan, preview and recover data, whether your phone is rooted or not, and save you from any data loss.

**Get Back Essentials with The Highest Success Rate:**

Built on the latest innovative technologies, PhoneRescue maintains its leading position to retrieve data with the highest recovery success rate. All your lost data, as well as your hidden photos and app data, will be found out and displayed clearly in categories. You can then select and bring back what you need in minutes.

**Retrieve The Data You Care Most Directly to Your Android Phone:**

PhoneRescue is the only Android recovery tool that can restore your crucial personal data directly to your phone for instant use, including messages, contacts, call logs and calendars. Better yet, you can also recover your photos, music, videos, and even app data to your computer with zero quality loss - no root required.
