

Peak Reality Releases Augmented Reality Abraham Lincoln Mobile App

Published on 02/13/18

Peak Reality, LLC today announces AR Flashcards Abraham Lincoln, their new augmented reality app for iOS devices. AR Flashcards Abraham Lincoln makes learning about America's 16th President more immersive and fun than ever before. Users can place a full sized Abraham Lincoln on the ground and watch him recite the Gettysburg Address. Users can also place doorways on the ground and step through them with their device to suddenly be transported to real historical places that Lincoln grew up in.

Saint Louis, Missouri - Mobile app developer, Peak Reality, LLC is pleased to announce that they have released AR Flashcards Abraham Lincoln to the Apple App Store. This is an augmented reality app using Apple's ARKit to learn about Lincoln's life. AR Flashcards Abraham Lincoln makes learning about America's 16th President more immersive and fun than ever before.

Using Apple's ARKit, users can place a full sized Abraham Lincoln on the ground and watch him recite the Gettysburg Address. Users can also place doorways on the ground and step through them with their device to suddenly be transported to real historical places that Lincoln grew up in.

Since launching AR Flashcards Animal Alphabet in 2012, developers Heath Mitchell and David Callahan have grown the AR Flashcards brand to over 1 million downloads. "We wanted to create an experience where people of all ages could visit real historical places that Lincoln lived as he was growing up," says Heath Mitchell, lead developer. "Our hope is people will learn something about Lincoln that they never knew."

Peak Reality recently updated all of their apps to be compatible with the recently released iOS 11 for Apple devices. Interview opportunities, screen shots and digital downloads are available for working media.
