

Teleprompter 2.0 for iOS - Teleprompter + Record + Auto Subtitles

Published on 03/15/18

UK based VideoGo Ltd today announces Teleprompter Auto Subtitler 2.0, an update to the company's professional level standalone teleprompter and video recording app developed exclusively for iOS devices. VideoGo Teleprompter Auto Subtitles is a great solution for the perfect video recording. Not only can you use the teleprompter to help read your script, the app also features a recording option and a final option to automatically burn your script into subtitles for your final video output.

Letchworth Garden City, Hertfordshire, United Kingdom - VideoGo Ltd today is proud to announce the release of Teleprompter Auto Subtitles 2.0, an update to the company's professional level standalone teleprompter & video recording app developed exclusively for iPhone, iPad and iPod touch devices. VideoGo Teleprompter is the ultimate series of video apps to create and share your own branded broadcast quality videos quickly and easily from your mobile device.

Perfect for vloggers, small business and the corporate sector, VideoGo Teleprompter Auto Subtitles offers a nicely designed interface that is simple to operate. It ships with a variety of features which are easy to understand and fits well within multiple environments. VideoGo Teleprompter is essentially three products in one. Flip between the standalone teleprompter for those with a separate camera, or use the built-in recording app with a teleprompter by its side. Lastly you have the option to burn your script into your final video render, a massive time saver from the usual captioning software and .SRT files processes.

Features include:

- * Text only or Record Mode
- * Text Size and Text Speed
- * Pause snippet
- * Rotate and Reflect Mode
- * Scale Video up or down for more real estate
- * Save your presets, no need to start from scratch if you would like to create several tests
- * Share via email or your favourite social media platforms
- * Countdown Timer
- * Clock
- * Option to Burn Script in Final Video Render Automatically

"Our team have over 40 years experience in the broadcast, television and video industries. And with the expanding mobile market, decided to create a suite of video apps for use with your mobile device," explained Joph Hord, co-founder of UK VideoGo Ltd. "With a template structure in mind, we create apps which enable our customers to speed up their workflow and produce consistency in their brand."

In version 2.0, Now with Auto Subtitling - Add Subtitles to your video recordings direct from your script. Automatically burn subtitles to your final videos as an option.

Device Requirements:

- * iPhone 5s or later, iPad, and iPod touch
- * Requires iOS 11.1 or later
- * 22.5 MB
