

myTuner Radio 6.0.2 Now Supports Alexa and Sonos

Published on 03/29/18

The myTuner radio team brings big news about the latest version for iOS and Android. Now you can enjoy myTuner Radio, not only on your mobile devices, desktop devices, wearables, TV sets, set-top boxes and connected cars, but now also on Alexa and Sonos. On Alexa you only need to ask it to open myTuner radio and then request it to play a station of your choice. myTuner Radio is a multi-platform solution that allows you to listen to 50,000 radio stations from more than 200 countries.

Porto, Portugal - The myTuner radio team is very excited about the latest version for iOS and Android, because it brings big news! Now you can enjoy myTuner Radio, not only on your mobile devices (iOS, Android and Windows Phone), desktop devices (Web, Windows and Mac), wearables (Apple Watch and Google Wearables), TV sets, set-top boxes and connected cars, but now also on Alexa and Sonos (beta version).

myTuner Radio team is always making an effort to be available on more and more platforms. That being said, we couldn't ignore the fact that Alexa and Sonos were the next big step we had to take to be available to even more people. So, myTuner Radio team made this possible! The latest version of myTuner Radio supports Alexa and Sonos and it is uber-simple to use.

On Alexa you only need to ask it to open myTuner radio and then request it to play a station of your choice (e.g. Step 1 - "Alexa open myTuner Radio" Step 2 - "Play BBC radio one"). Looking for a recommendation? With myTuner Radio opened already on Alexa you can play the most popular stations from 200 countries or territories (e.g. "What are the most popular stations in the United States?") You can also tell myTuner Radio to play your preferred genre (e.g. "Play the best jazz radio stations").

myTuner Radio's latest version is also pretty simple to play on Sonos. You only have to run the Sonos app, add the music service myTuner Radio and start enjoying your favorite stations and podcasts directly from myTuner Radio into your Sonos wireless speakers, wherever you are.

myTuner Radio features the best radio listening experience and the best way to discover new hits or remember old ones you didn't listen to in a while, on your favorite radio stations.

Remember that, above all, myTuner Radio is a multi-platform solution that allows you to listen to 50,000 radio stations from more than 200 countries / territories. The iOS and Android versions of myTuner Radio are available for Free and you can download them at any time.
