Published on 04/19/18

BVI-based indie development team, Eurostar today announces Dragon Dreams 1.33 for iOS devices, an important update to their entertaining game that combines elements from quest, arcade and role-playing games. Players guide their dragon to complete levels, unlock rewards, and upgrade their abilities. Players can use one of three control methods to guide their dragon through the game. Version 1.33 brings gyroscope controls to the game.

Tortola, British Virgin Islands - Independent development team, Eurostar today is proud to announce the release and immediate availability of Dragon Dreams 1.33, the important update to their entertaining and free-to-play game for iPhone, iPad, and iPod touch devices. Dragon Dreams combines the best elements of quest, role-playing, and arcade games into one easy-to-learn yet challenging game.

Dragon Dreams allows players to guide their dragon through multiple levels of entertaining quest-based action. Players can fly their dragon using one of three easy-to-master control methods, guiding them to find hidden treasures while unlocking and upgrading their abilities, as they progress through each distinctive level of play.

"Dragon Dreams is the culmination of our efforts to create a game that's easy enough for youngsters to play and enjoy, yet challenging enough that older children, and even adults can enjoy it," says a Eurostar representative.

Players are introduced to their dragon when the game first starts, in a short tutorial that guides them through the controls and methods of playing the game. Here, players can learn how to guide their dragon through the game, preparing for the challenges they'll face together.

The cave is an area where players can play with their dragon, interact and upgrade their abilities. Here, is where a secret quest awaits them. To decorate the cave players will need to possess crystals of different colors which could be found in magic dreams.
